Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

mailroom@bskb.com

Office Action Summary

Application No.

10/722,465

Applicant(s)

KIM ET AL.

Examiner

RITA R. PATEL

Art Unit

1792

Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 November 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,3-5,7-9 and 21 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1,3-5,7-9 and 21 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO/S508)
Paper No(s)/Mail Date _____
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date _____
- 5) ☐ Notice of Informal Patent Application
- 6) ☐ Other: _____

DETAILED ACTION

Response to Applicant's Arguments / Amendments

This Office Action is responsive to the amendment filed on 11/16/07. Claims 1, 3-5, 7-9, and 21 are pending. Claims 10 and 17 have been canceled. Claims 1, 3, and 7 have been amended. Claim 21 has been added.

In light of the amendments to the claims, the former 35 USC 102 rejection over Beare et al. has been overcome, also the formerly applied 35 USC 103 rejections have been withdrawn accordingly. However, upon further consideration, the instant claims are rejected under new grounds of rejections and thus, claims 1, 3-5, 7-9, and 21 are finally rejected for the reasons of record.

Applicant's Remarks filed 11/16/07 are drawn to the former rejection and are now considered moot because of a new grounds of rejection taught herein.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-5, 7-9, and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beare et al. herein referred to as "Beare" (US Patent No. 3,762,608) and further in view of Saponara (US Patent No. 2,988,788).

Beare teaches a washing machine having a cabinet top plate 10 with an opening 16 therein, a wash basket 17, a detergent dispenser 18 with a hingedly attached cover 26, and a loading hole formed by inner walls 80, 82, 84, and 86.

Beare teaches the claimed washing machine, except Beare fails to teach a packing means/sealing gasket formed on the bottomside of the detergent cover 26. It would be beneficial to have a packing means/sealing gasket formed on the cover 26 to keep external liquids from coming in, and vice versa, to keep internal liquids from seeping out. Attaching sealing gaskets onto doors is commonly known in the art of domestic appliances such as washing machines, refrigerators, dryers, ovens, etc. for preventing leakage. Saponara teaches a rubber sealing gasket (packing means) of continuous length for attachment to a hinging door frame such as that of an oven or refrigerator. A backing plate 26 (insertion groove) formed on the door allows the gasket to attach thereto by inserting hooks 18 into openings 16, 32 (plurality of inclined protrusions). The gasket is applied to the door by rotating the bead and flange part of the gasket to the position shown in Figure 3, to expose openings 16, 32 to permit insertion of the spring clips after which the flange and bead automatically assume the position of Figure 4 (col. 2, lines 18-24) (sliding insertion of gasket to the door). Although the invention of Saponara can be used for sealing the doors of an oven or refrigerator, it is wholly capable of use in washing machine as well. It is well settled that

Art Unit: 1792

the intended use of a claimed apparatus is not germane to the issue of the patentability of the claimed structure. If the prior art structure is capable of performing the claimed use then it meets the claim. *In re Casey*, 152 USPQ 235, 238 (CCPA 1967); *In re Otto*, 136 USPA 459 (CPA 1963). The gasket of Saponara may equally be used on the cover of a washing machine for performing the same leakage prevention functions. It would have been obvious to one of ordinary skill in the art at the time of the invention to have a gasket formed on the lid of the Beare invention to prevent liquids such as detergent and water from escaping the washing machine. If liquid escapes the washing machine, it may cause a mess and spew soapy water or even water with bleach outside the washing machine and pose a potential hazard. Also, preventing external liquids from entering into the washing machine is important to keep from diluting or adding undesirable liquids to the washing machine. If undesirable liquids enter the washing machine then the laundry machine may overflow with liquid and not operate properly. Putting gaskets/sealing members on the doors of washing machines is known in the art of domestic home appliances as taught by Saponara.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Moyer (US Patent No. 5,205,075) teaches gaskets for sealing a space between surfaces and clips for mounting said gaskets.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to RITA R. PATEL whose telephone number is (571)272-8701. The examiner can normally be reached on M-F: 9-6.

Art Unit: 1792

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on (571) 272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
